CITY TO GET NEW POST OFFICE

TO INVESTIGATE 807 PENSIONERS IN THIS COUNTY

State Orders More
Thorough Check
of Claims

OLD AGE GROUP

Kankakee county old age assistance officials received a communication today from the Illinois public welfare department warning that eligibility of all old age assistance applicants be thoroughly investigated, emphasizing need of a "complete, impartial and unprejudiced investigation."

Similar letters were sent to all county welfare departments throughout the state by John C. Weigel, administrative assistant in the state department, who said that a large number of applications did not contain sufficient information to allow the state old age division to make a decision on eligibility.

The letter, along with other changes in the state pension setup is expected to clear the way for lifting of the federal social security loan because of alleged negligence in the state's administration of its pension law.

Affects 807 Here
Mrs. Lucella Tanner, county superintendent of welfare, said today that 807 persons in this county were affected by the federal board's ruling which stopped their monthly assistance checks for August.

This number, she explained, constitutes the total of elderly persons in receiving assistance checks here in July. Minor fluctuations are apparent from month to month because of recipients dying or receiving inheritances or jobs, making them no longer eligible.

Also, in a few instances, some have been removed from the rolls because they have attempted to hide certain assets. Those removed, however, are usually more than balanced off by new applicants.

Must Be Impartial
Weigel's communication said, "Effective at once, requests for additional information on all such cases are being sent to all county departments."

"Henceforth county superintendents and investigators will forward to the central office only applications which show unmistakably a complete, impartial and unprejudiced investigation."

"The law which recognizes the right of needy aged persons to this assistance is quite as clear as the obligations of the employees of the state."

State Meeting Held
in Springfield
Hotel

Springfield, Ill., Aug. 18.—(UP)—A plea for return to "grass roots" and booming of Franklin J. Stranek, lawyer, newspaper publisher at Savannah and a former state chairman, for U. S. senatorial nomination, was the keynote of the Illinois Republican state fair today.

LAUNCH DRIVE TO RAISE \$5,000 FACTORY FUND

Money Being Raised
to Pay Expense
for Site

BOOST BUSINESS

Business leaders were high in their praise today of the accomplishment of the industrial committee of the Kankakee chamber of commerce in obtaining the new \$1,500,000 corn mill of the General Foods company for Kankakee.

Approximately 50 business and professional leaders met at McBroome's cafe at noon to hear the story of how it was obtained and to start a campaign to raise \$5,000, the amount of expenses incurred in bringing the deal to successful conclusion.

F. O. Schneider, general chairman of the campaign committee, announced his team captains as Leonard L. Smith and Bert L. Fitzgerald. Each captain will have 25 workers.

Borrowed Money
In outlining the negotiations carried on, members of the industrial committee pointed out that officers of the board of directors authorized by the board of directors to borrow sufficient money to provide necessary culverts over Soldier creek on the factory site and to buy additional property for the Kankakee Stone company for the site. These items, together with other incidental expenses, brought the total to approximately \$5,000, it was said.

During the negotiations, several members called the chamber of commerce office and advised that they were sure the business and professional firms would stand back of the committee to do whatever was necessary to obtain this factory for Kankakee.

Give Placards
These firms are now rallying to the support of the committee and volunteering to raise the necessary funds by popular subscription. In another column of today's issue is a reproduction of the placards which are being distributed in the business community to show their interest in obtaining this factory for Kankakee.

As one business leader put it:
"This campaign will prove to everyone in this territory that every business and professional person in this community is interested in bringing new factories to Kankakee and is proving it by the fact that they are showing their interest in obtaining this factory for Kankakee."

Bessie Says She Really Felt the Heat on Tuesday

Bessie Nellinger, advertising clerk of the Republican-News, thought it was "real comfortable" in the office today.

It was the contrast because yesterday she really felt the heat.

In the morning, Jim Greenwood, want-ad man, turned on the electric fan at her request. By mistake (so she says) he also turned on the electric heater she had under her desk since last winter when her feet were cold.

"I wondered all afternoon why it was so hot," she said later. "No one seemed to feel the heat like I did. The fan was doing its best to keep me cool but, well, there was just too much competition."

This morning she had the heater removed to the storeroom.

**Combustion Cause
of Chebanse Fire**
A large barn and crib on the Arthur Meyer farm, three miles west of Chebanse, near the county line, were destroyed by fire which started at 7 o'clock Tuesday evening from spontaneous combustion in new hay.

The entire hay and alfalfa crops and 4,000 bushels of alfalfa recently threshed were destroyed with the buildings. With the wind from the northeast, blowing embers directly in line with the Meyer home, the occupants and neighbors moved out of their furniture and possessions of the house.

The windows were so hot that they could not be touched, but the house was saved. It was built three years ago on the site of the old one which burned to the ground in another fire of spontaneous origin.

Forty head of cattle and several horses in the barn were led out to safety. The loss is partially covered by insurance.

**BLACK TO DON
COURT'S ROBES
NEXT OCTOBER**

After Bitter Battle
He is Approved
by Senate

Washington, Aug. 18.—(AP)—Hugo L. Black, who came out of the deep south as a Liberal senator 10 years ago, will put on the robes of a supreme court justice next October.

The 51-year-old Deep South lawyer, who was named by his colleagues late yesterday by a 63-16 vote, is the first Roosevelt appointee to the high tribunal.

By their one added confirmation, senators rejected the contention of opponents that he once belonged to the Ku Klux Klan and was therefore unqualified for the post.

The 51-year-old New Dealer, accepting congratulations with a broad smile, said he will resign from the senate at once. After a vacation, he will take the seat of the conservative Justice Willis Van Devanter, retired, when the autumn term of court begins.

Bitter Fight
Black pledged himself to "serve the people to the best of my ability." He will have opportunity, if he wishes, to help pass on constitutional amendments, but he helped pass legislation of laws which he helped pass. Despite the vehemence of the opposition, fewer senators than against registered against him than Chief Justice Hughes or the veteran Justice Brandeis.

A handful of foes pounded all afternoon against the advisability and legality of his appointment. Their attack reached a climax when Senator Burke (D-Wash.) declared two men now in Washington were ready to testify they witnessed the initiation of Black into the Klan many years ago.

Black's supporters did not reply. Dr. Hiram W. Evans, Indiana, indirectly, of the Klan, had said earlier in Atlanta that Black was not a Klansman.
